

Omon Aburime
Asset Manager – Delaware Asset
Apache Corporation
Katy, TX

Omon Aburime currently serves as the Delaware Asset Lead for Apache Corporation, a role he assumed in April 2020. He is responsible for leading the multidiscipline functional teams and maximizing the value of Apache's assets in the Delaware Basin.

Omon joined Apache in 2007 when he was selected for a highly-competitive slot in the engineering development program. His technical expertise, professionalism and strong communications skills quickly won him a strong internal reputation and earned him a permanent position in the improved recovery group in 2010. His direct approach and ability to cut through technical data and distill key messages ultimately garnered the attention of Executive Management, and he was asked to come work directly for the COO of North America in 2013. Omon became a trusted advisor that the COO relied on for quick and accurate data and recommendations. As the COO transitioned into the new role of CEO, Omon continued to serve as a key player and advisor to him and other members of the Executive Management Team. He has served in numerous roles, leading technical groups responsible for projects in the U.S., Argentina, Canada, U.K., Egypt, and Suriname. For his contributions and commitment to hard work and excellence, Omon was nominated and won the Houston Business Journal 40 under 40 award in 2015.

Prior to joining Apache, Omon served in the United States Army from 2000 to 2004. He had two deployments to South Korea and Iraq and was awarded the Bronze Star Medal for his actions during Operation Iraqi Freedom in 2003.

Omon's humble beginnings in Nigeria drive his passion for giving back to his community. He enjoys mentoring young professionals as they try to navigate the challenges of an ever-changing job market and a global economy. He volunteers with the Nigerian American Multi-Cultural Council and has served as a board liaison for the National Action Council for Minorities in Engineering (NACME).

Omon holds an MBA from The University of Texas McCombs School of Business and a BS in Petroleum Engineering from Texas A&M University. He is happily married to his beautiful wife Patty and they enjoy spending time with their twins Alex and Annie.
